SUMMARY

As a dedicated college student pursuing a degree in Computer Science, I am enthusiastic to leverage my curiosity for technology and quick learning pace in the realms of Frontend Development and Content Writing, with a hope to gradually expand myself to other domains as well. Additionally, my empathetic nature enables me to comprehend and connect effectively with a wide range of audiences. I am seeking internship opportunities to further enhance my skills and contribute meaningfully to innovative projects in the dynamic intersection of technology and communication.

SKILLS

Skill	Proficiency
HTML5	●●●●
CSS3	●●●●
Boostrap	●●●●
C	●●●

EDUCATION

School		2015 - 2021
Ramakrishna Vivekananda Mission Vidyabhawan

PROJECTS

Soda
Soda is an implementation of the YSM ISA. It allows programs written for YSM to be run on the web, and, even though, it currently runs on WebAssembly, YSM's optimized instruction set makes it easier to write programs for the web.

FragmaMetrics
Fragmametrics was written to compare different allocation algorithms and analyze their efficiency.
